

UPDATING YOUR TBW INFORMATION – FALL 2010

Members will first receive an email at the primary and secondary email addresses provided to the TBW, over the past 3 years. This email will come directly from the contact@tussingblockwatch.com email address. All contact information that the TBW currently has on file for you will be included in this email. Once you receive the email, all you will need to do is respond to that email with any corrections or additions that need to be made.

Because we will need to email and contact all 750+ TBW members directly to complete this task, members will be contacted according to the below schedule:

Week of

Aug 22nd – Independence and Turnberry Block Watch/Subdivisions

Aug 29th – Brentwood Lake Apts, Park Place West (north), and Park Place West (south) Block Watch/Subdivisions

Sep 5th – Park Place (east) and Turnberry Green Block Watch/Subdivisions

Sep 12th – TBW Businesses and TBW Partner Block Watches

If we do not hear back from members within 1 week of contacting them by email, we will begin calling each to make sure that all of their information is up to date. When calling, we will not ask you for your current information without first identifying the member listed on our membership list. We will then provide you with the information we have on file for you and request that you let us know any corrections that need to be made.

Please understand that calling members will take considerably longer so quick responses are greatly appreciated to cut down on this task. Please also understand that if we need to call members, it may take us longer than the initial week to make contact with members. If you receive a phone call from a TBW volunteer and are uncomfortable with providing your information over the phone at that time, you can call the TBW back at 374-4871 and provide us your information at that time.

Please do not email or call us with your updated information until we have first contacted you though. This will help us maintain a system and get through all 750+ members as smoothly and quickly as possible!

We sincerely appreciate all of our members and their efforts in making our community a safer and more desirable community to live in and we thank you for your patience during this process!
